FENPLAST

Welcomes You.....

Fenplast have established an enviable reputation as a premier high-quality uPVC doors and windows brand for their precision, technological know-how, excellent design sense, and customer service excellence.

As uPVC Windows and Doors manufacturers, our supply of unplasticized polyvinyl chloride (uPVC) profiles is produced using best-in-class German technology, ensuring high quality and precision. We have evolved from a quaint manufacturing base to a modern production facility with high-class plant & manufacturing equipment, dedicated to meeting the exact and precise requirements of our customer base.

VISION

To create a world class upvc window Profile manufacturing industry that purses Quality, Cost Reduction and Productivity Improvement.

MISSION

Our vision is to lead in uPVC innovation, offering sustainable, stylish, and energy-efficient doors and window Profiles.

Tested by Standards
Certified by Quality

Properties as per India Standards	Range	Result	Accreditations from
Heat Reversion as per IS 17953 ANNEXURE C	Main Profile 2.0	1.79	CIPET

Compression Bending (T Corner) as per IS 17953 ANNEXURE F	-	2124.0 N	CIPET
Charpy Impact Resistance as per IS 13360 Part 5 / Sec 5	> 65	71.83 KJ/M2	CIPET

BENEFITS

DURABILITY

Fenplast windows do not warp, twist or split. Impact modifiers in our profiles are treated with special additives making them long lasting.

BUG MESH OPTIONS

Mosquitoes and other bugs are a big menace. To protect against insects, we have bug mesh option available for our sliding systems.

TERMITE & CORROSION RESISTANCE

Fenplast windows are termite and corrosion resistant. Salts, acids, alkali and waste gases cannot corrode the window systems.

IMPACT RESISTANCE

Fenplast windows are uniquely designed and specially formulated to withstand high impacts during handling and installation.

SOUND INSULATION

Not only do they provide thermal insulation but also special sound insulation. Double glass units can help in sound reduction up to 30 Db.

FIRE RETARDANT

Fenplast windows are fire retardant. During fire, once source of fire is removed, a carbonaceous layer is formed stopping the spread.

MAINTENANCE FREE

Fenplast windows are virtually dirt resistant and easy to maintain with normal soap water

AESTHETICS

Fenplast windows do not warp, twist or split. Impact modifiers in our profiles are treated with special additives making them long lasting.

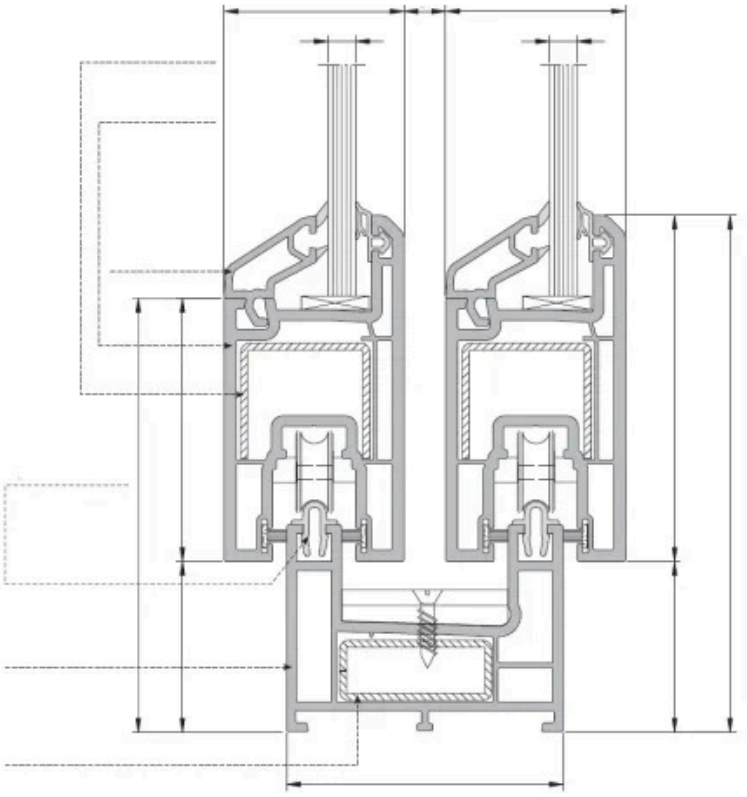
IAQ

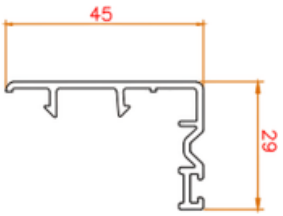
Indoor Air Quality (IAQ) can be maintained by avoiding interior energy loss. Fenplast windows reduce energy loss by over 30% thereby reducing energy costs

UV RESISTANCE

Fenplast windows offer 100% UV resistance with the right amount of TiO_2, which helps in retaining whiteness against exposure to the sun.

SLIDING WINDOW
2 TRACK





Part Name	Sliding window sash interlock

COLOURS

White

The Timelessly elegant classic - smooth, glossy surface with durable visual appeal

Grey & Black colour

A wealth of colours present a convincing marriage of elegant smooth or structured surface and a pleasant feel

INSTALLATION & SERVICES

EFFICIENCY THAT EXCEEDS YOUR EXPECTATIONS...

The process of installation starts from the site survey during plastering work of the building. Measurements are taken in height, width, and diagonal with the advice of the site engineers.

The sizes and designs of windows with the appropriate placements are confirmed with the engineer. The installation windows are positioned exactly with the tube level and plumb level.

They are perfectly screwed with hanger fastener screws using hammering machines so that the windows hold on strongly to the walls. They are then sealed properly with silicon sealant that ensures tight packing, without any clear

SERVICE & SUPPORT

Our relationship with our customers doesn't stop with the sales & installation process; in fact, it is then that it begins.

We understand the paramount importance of after-sales service and the impact it has on building a long-term customer rapport. Hence to deliver timely and prompt services, we have an experienced and efficient service team for post-sales services.
